## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, drawn to an artificial lipid bilayer membrane lipid substitution method.

Group II, claim(s) 8-9, drawn to an artificial lipid bilayer membrane formation device.

Group III, claim(s) 10-12, drawn to an ion permeation measuring device.

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature present in all the groups is a tubule for adding a lipid solution. This cannot be a special technical feature under PCT Rule 13.2 because the feature is shown in the prior art. Ide et al. "An Artificial Lipid Bilyaer Formed on an Agarose-Coated Glass for Simultaneous Electrical and Optical Measurement of Single Ion Channels" (Cited in IDS) discloses a membrane forming method and device including adding a lipid solution via a tubule (*Page 596, Formation of a horizontal lipid bilayer in an aqueous environment*), Therefore presenting a lack of unity between the groups a posteriori.

3. A telephone call was made to Donald Daley on 4/2/09 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
